TruAssure Dental Solutions for Businesses With 10 or More Eligible Employees*

At TruAssure, we cater to your needs and can customize a dental plan for your company. We provide the dental coverage employees want and make administration for groups as easy as possible. We provide both fully insured and self-funded options. And we can match plan designs or customize a dental plan that best meets your company's needs.

Our group dental plans offer businesses comprehensive dental coverage that helps attract and retain employees while providing the best overall savings for your group. And we make them hassle-free for groups and their employees. When you choose TruAssure as your dental benefits carrier, you can be sure that you're making the best choice for your employees and your company.

Why a TruAssure dental plan is the best choice for your business:

- **Truly affordable coverage.** Our dental plans help keep your bottom line manageable.
- **Fully insured and self-funded options.** We can accommodate your group's needs by offering fully insured plans as well as ASO (administrative services only) options.
- **Stand-alone plans independent of your health insurance.** You'll get richer coverage and lower out-of-pocket costs than a plan that's "embedded" in a health plan.
- **Network dentists where employees need them.** Employees can find dentists who best fit their schedules and location – close to home or near the office.
- **Service that will make you smile.** Your employees get accurate and timely answers to their questions, allowing you to manage the rest of your business.
- **Flexible plans to meet your needs.** We can customize a plan to meet the needs of your group and employees at an affordable rate.
